

Midlothian's 'Big Bedtime Read' is coming to Bonnyrigg Nursery

We need your children's books!

Did you know?

Your child's brain will double in size in the first year of his/her life and by 3 years old their brain size will be 80% of your own brain and 90% by the time they are 5! (Gilmore et al., 2007)

The back and forth interaction between you and your child (as can be practised through reading at bedtime) shapes their brains architecture, supporting the development of social, emotional and communication skills. (Urbanchildinstitute.com)

How can you help?

Donate your used children's books to the Big Bedtime Read library. Books should be suitable for 3-5 year olds.

When you get the chance, simply drop the books off either to the nursery or to your child's class teacher. We will be collecting books until Friday 28th October.

Thank you!
